Reference: Docket No. 02-06

Dear Ms. Gillett,

My name is Gary Green and I am a consultant for a national non-profit organization established in the early 1980's called MiCTA. MiCTA membership is open to any non-profit entity and therefore we have a very diverse group of members. For many years MiCTA has been involved in filing E-Rate 470's in concert with its organizational RFP's delivering the organizations full purchasing power for the benefit of its K-12 and Library members across the country. By providing this service we have helped these members avoid the cost and time of having to conduct their own 470 process and concentrate on their 471 filings. MiCTA is very interested in being able to do the same for our Rural Health Care members.

MiCTA is therefore asking that:

1. Our Rural Health Care members are allowed to use the 470 multi-year "Master Service Agreements" MiCTA holds in lieu of having to run their own 465 process.
2. The Rural Health Care "Eligible Services List" is expanded to mirror the E-Rate Eligible Services List.

MiCTA believes that by doing this we can encourage more of our Rural Health Care members to participate in the USF Rural Health Care program, support them with the organizations technical expertise, and save countless of USF Rural Health Care dollars due to the increased discounts available through our Master Service Agreements.

We appreciate your time in considering these requests and hope that you will give us the opportunity to play a more involved role in serving our Rural Health Care members as they strive to enhance their role serving society.

Respectively,

Gary L. Green
